Join the Development & Peace (D&P) People and Planet First Campaign to hold Canadian companies that operate abroad responsible for protecting human and environmental rights. The powerful world leaders debating the future of the planet at the 26th UN Climate Change Conference (COP26) may be too far removed from the realities facing the earth's most vulnerable people. So it is up to us to hear and amplify the voices of those who are protecting the environment against economic devastation while defending their own rights. Medarda Hernandez, whose community in Honduras has been repeatedly harmed by large industrial projects (including supposedly "green" projects), says, "If other extractivist projects start in our community, we are not going to let them pass. I ask the international community to come to our aid, because we are really suffering from this situation." Visit <https://devp.org/en> to learn more.

REFLECTION

Remembrance Sunday

November pierces with its bleak remembrance
Of all the bitterness and waste of war;
Our silence tries but fails to make a semblance
Of that lost peace they thought worth fighting for.

Our silence seethes instead with wraiths and whispers
And all the restless rumour of new wars,
For shells are falling all around our vespers,
No moment is unscarred, there is no pause.

In every instant bloodied innocence
Falls to the weary earth, and whilst we stand
Quiescence ends again in acquiescence,
And Abel's blood still cries from every land.

One silence only might redeem that blood:
Only the silence of a dying God.
